

SWINE FLU SCARE!!!!

In a world filled with danger and death, now we have a new scare, the SWINE FLU! And when the news media has ran that story in the ground they will find something else to scare you about. In the meantime we have a “reactionary” government that is going to “protect” everyone from this dreaded disease.....this sounds like a movies script! (A bad movie!)

It is time for a reality check!!!! **ONLY THE BODY HEALS!** The best defense against disease **INCLUDING THE SWINE FLU** is a strong immune system. If you really want to be health and protect yourself, then you need to take care of yourself. Chiropractic care helps the body by removing interference within so it can better protect itself as it was designed to do. Make sure you are getting your chiropractic care!

NEXT..... the FDA will promote drugs that kill us and vaccines that do more harm than good, remember the 1970's “Swine Flu” epidemic, more people died because of the vaccine than the disease. What this doctor recommends is **TRANSFER FACTOR!** This is a proven **SAFE** way to improve your immunity, and that is the best thing you can do. You can investigate this on the internet or you can go to our website at **WWW.CHER4LIFE.COM**

If you want to protect yourself from SWINE FLU these are the best recommendations you can have. Be responsible!!
Take care of yourself!
